ABOUT US

Observe Care Consulting is a CQC-compliant consultancy specialising in helping individuals and organisations launch, grow, and succeed in the home care sector. From initial registration to operational setup, we guide you through every stage with hands-on expertise drawn from years of frontline care delivery.

OUR CONSULTANTS

Our consultants are experienced, highly qualified professionals with direct backgrounds in care management, compliance, and regulatory affairs. Each consultant brings verified industry credentials, giving you the assurance of working with people who have built and run care services themselves. For urgent project needs, our team can mobilise support within 24 hours, ensuring your timelines are always protected.

WHY CHOOSE US?

We deliver expert, practical guidance to take the complexity out of entering or scaling within the care industry. We support clients through CQC registration, policy development, and compliance frameworks.

For aspiring providers and existing operators alike, our consultancy offers the clarity and structure needed to build a sustainable, high-quality care business.

TENDER SUPPORT

Winning care contracts requires more than good intentions. At Observe Care Consulting, we specialise in bid writing, tender submissions, and framework applications — equipping our clients with compelling, compliant proposals that stand out. We handle the process from start to finish so you can focus on building your service.

✓ HOME CARE CONSULTANCY

Everything a new or growing care provider needs — from business registration & policy writing to staffing structures, compliance audits & operational systems.

✓ SETUP & REGISTRATION

Guiding clients through the fCQC registration process, including statement of purpose, key policies, and preparing for inspection — so you stand on solid regulatory ground.

✓ TENDER & BID WRITING

Our team produces professional, targeted tender submissions for NHS, local authority, and framework contracts — maximising your chances of winning care delivery agreements.

✓ CHILD & YOUNG ADULT CARE

For providers entering the children and young people sector, including service design, safeguarding frameworks, educational support pathways, and behavioural management strategies.

TRAINING DESIGN

Building a well-trained workforce starts with the right programmes. We design bespoke training frameworks covering mandatory modules — moving and handling, medication administration, safeguarding, health and safety — as well as specialist pathways for autism, learning disabilities, and behaviour support.

RECRUITMENT CONSULTANCY

We advise on recruiting and vetting high-quality caregivers, nurses, and support workers — helping you build compliant, capable teams for residential, community, and live-in care settings. Our recruitment frameworks align with NHS and CQC standards, giving your service a workforce foundation you can trust.
